ABOUT DESHABANDHU CLUB

FROM THE PRESIDENT' DESK

The organization started its' journey as Balak Samiti in 1966 at Behara Bazar, a small village on the foothill of picturesque Barail. Sports loving members turned to philanthropist after witnessing devastating flood in neighboring villages of Behara. They joined in relief & rescue operation & since then the Balak Samiti turned to a voluntary organization & in later course of time renamed as Deshabandhu Club. The organization received active support & participation of different stakeholders, funding agencies of national & international fame including common people in it's journey & acknowledge it with sincere gratitude. Presently different programmes are being run by organization in the area of education, health, sanitation, disability, entrepreneurship & livelihood etc.

A Care, support & treatment facility for HIV/AIDS at Tarapur, Silchar will complete its 4 years of journey in July,2012 .The Community Care centre (CCC) is bringing some hope in the lives of people living with HIV/AIDS. Community Based Rehabilitation (CBR) Forum, Bangalore has also extended their support for the rehabilitation of the disabled and the organization has been implementing this program in four villages of Kalain Development Block. The undersigned would like to convey sincere thanks to the donor agencies for their generous help in many ways. Without their help, it would have been very difficult to carry out the mission in a planned manner. Hope in days to come also these agencies will continue to support this organization in realizing its much-cherished dreams of improving the social life of the target group. The undersigned also would like to enjoy the opportunity of requesting all stakeholders to identify our mistakes, if anything is noticed by them and to suggest what measures need to be taken to make the program implementation more result oriented. I assure that all these suggestions will be considered while designing any plan of action in future so that program become more focused and it fits with the needs and aspirations of the people.

Dr. Sanjib Sikidar

President

DESHABANDHU CLUB

A North East Based NGO started its journey in 1966 previously it was known as Balak Samiti, from the humble beginning as a football Club, subsequently the wings of its activities were spread as the NGO started working towards emancipation of the Socio-economic problems of the have not with special emphasis on minority, Women, Child & other vulnerable section of the society. Presently the NGO has been working in the five district of Assam viz, Cachar, Karimganj, Hailakandi, N.. Hills & Karbi Anglong.

OUR VISION

To create a society where every citizen avails basic needs and service so as to have life with self respect, dignity and pride.

MISSION STATEMENT

“Deshabandhu Club exists to bring the socio-economic development of the citizen particularly to women & Children of Assam by 2020 A.D. would like to provide cost effective, Sustainable people's friendly health, education, economic empowerment & rural entrepreneurship service through people's participation.”

ACTIVITY

EDUCATION

Education in the largest sense is act or experience that has a formative effect on the mind, character & functional ability of an individual. True education not only shapes the life of an individual rather it influences society. "Education for all" is still a challenge in the developing countries & India itself has nearly 35% illiterate population as per 2001 Census. The Govt. of India had taken up several programmes like adult education, Non Formal Education & Presently national flagship Programme namely; Sarva Siksha Abhiyan (SSA) is being implemented. Not only SSA, Schemes like Mid Day Meal programme has been taken up with an aim to uphold their nutritional status and to bring them to the

ambit of school. All out, efforts have been made to minimize the school dropout through mid day meal scheme. Efforts have also been initiated to improve the school infrastructure & to appoint additional teachers on contract basis to improve the overall education environment of the school in general and to maintain the teacher student ratio in particular. To achieve all these, the effective community participation is the key, which has the ability to make the difference. There are many non-governmental organizations, which have been working for the cause of education in many inaccessible and in remote areas. After the initial program implementation of non-formal education, identifying the hard to reach children under SSA, the organization started a formal school namely "DESHABANDHU VIDYANIKETAN" in 1994 to give low cost, value based, quality education to the rural children of Behara and its adjoining areas. Since 1994, the school has been crossing milestones one after another and now the school has become a renowned educational institution in Behara area.

DESHABANDHU VIDYANIKETAN

The School, which started its journey only with 8 students in 1994, has now enrolment of 247 students at present. In the final High School Leaving Certificate examination of 2012, 100% students could successfully clear the examination with 6 children got 2nd division, 3 children in 3rd division. The management is trying very hard so that result can be further improved.

HEALTH

Health is a core element for development of any country. It contributes to the material, intellectual & spiritual progress of a nation. World Health Organization views that mere physical wellbeing or absence of any disease does not mean health of an individual rather Health means a complete wellbeing of body & mind. In India the "Health for All" – the Alma Ata declaration is still a far dream. Poverty, illiteracy & various other socio-economic & cultural factors are posing challenges to make health for all a reality. Indian women & Children are especially vulnerable to poor health & insufficient nutrition. In India women, dies of childbirth and pregnancy related complication is very serious and 47% of children cannot see their

1st birthday. As the organization has mandate of working in health sector, especially for the mother and children so, it started functioning in the area of community health through participatory approaches in the year 1992 in few selected gaon panchayats under Kalian Development Block of Cachar district. The initial aim of the organization was to assess the health needs of the community and to understand their health seeking practices. Field based survey was carried out to assess the gravity of the situation and the findings were alarming, which showed high maternal and infant mortality and high prevalence of vaccine preventable diseases. The birth rate was found very high with poor immunization coverage. To give little relief to the

people, the organization started "Deshabandhu Family Welfare Hospital" with an aim to provide basic diagnostic & counseling service to the women. Now, the hospital extends health care services to the women, children, old age people & mentally ill patients. The hospital provides free medicine to needy patients. Dr. Sanjib Sikidar has been rendering his voluntary service to the patients since inception. He also does free check up of patients at Deshabandhu extension centre, located at Tarapur, Silchar on Sunday, Tuesday and Wednesday. Beside this, Deshabandhu Club has been playing an active role since 1995 in PPI (pulse polio immunization) programme.

HIV/AIDS PROGRAMME

HIV/AIDS has been emerging as an international burden. The goal 6 (six) of the Millennium Development Goal is to combat HIV/AIDS, Malaria & other diseases. The first HIV positive case was detected in 1981 among homosexual in America. Around 40.3 million people globally are victims of the dreaded HIV virus (UN Report). The new UN report also indicates, however, that overall trends in HIV transmission are still increasing, and that greater HIV prevention efforts are needed to slow down the epidemic. Currently, India spends about 5% of its health budget on HIV and AIDS. However, the World Bank has warned that India will have to boost up prevention efforts to reduce the HIV/AIDS burden. According to the World Bank's report, by 2020 India

will have to spend 7% of its health budget on AIDS if the rising tide of the AIDS epidemic in New Delhi, Mumbai, the north and the north east is not stopped. It is clear that HIV and AIDS will have a devastating effect on the lives of millions of Indians in near future. It is essential that effective action is taken to minimize this impact. Combating the virus is not easy for the country, which has several socio-cultural & economic factors as challenges. The trend of HIV have been found high in vulnerable population as commercial sex worker (CSW), IDUs, MSM, truckers & migrant workers. Presently the country is having burden of 2.3 million HIV positive populations. In a country like India mere 0.1% increase of HIV positive means the spread of disease over half a million. UN estimate reveals that the virus is spreading among sex workers. HIV sentinel surveillance 2007 states that there is rising trend in North East. National AIDS Control Organization, the apex body working for the cause of HIV AIDS has been funding CST & intervention programmes to NGOs in India to reduce spread of new infections.

TARGETED INTERVENTION PROGRAMME (TI)

The Targeted intervention project aims to interrupt HIV transmission among highly vulnerable population namely commercial sex worker, injecting drug users, men having sex with men, truckers & migrant workers. The project aims to interrupt the rapid growth of STI & HIV infection among the high risk population through

appropriate right based approach in enabling environment. The objective is creation of awareness among community on issues of STI/HIV/AIDS, promoting safer sexual practice, expansion of acquaintance competencies & practical proficiencies about safer sex practices, minimizing STI cases among the HRGs through syndromic case management,

mobilizing target group by empowering them and making strong community response group. The organization has been implementing TI programme in Cachar district since 2007 with the financial support of Assam State AIDS Control Society. In 2007, the target group was truckers. Around 840 numbers of truck drivers, 130 numbers of commercial sex workers & 265 numbers of people in rural & slum areas were counseled, 10 nos. of awareness programme were organized in various pockets of the district. In 2008, Female sex workers were the main target group. Preventing general population from the infection by generating awareness

among FSWs & other secondary stakeholders is the aim of TI. The TI programme for FSW is being continued with Target to cover 1000 population female condom is an recent inclusion in TI Project activity. The female condom scale up project is being run under technical assistance of HLPPT. Presently the project is operational in selected 17 districts in 9 states of India including Cachar district in Assam. The vision is in touching lives with quality care, compassion & effective services & mission is to offer innovative & affordable health solutions globally that empower communities in meeting their health challenges & vulnerabilities.

A Report of Targeted Intervention activity is given below:

COMMUNITY CARE CENTRE (CCC)

The HIV positive people finally found a new hope of life in the Ante Retroviral Drugs. The drug has the capacity to fight with the life-threatening virus & slow down the progression of viral load in the body of a HIV positive person. Now with ART a person having the virus can live his life better as it enhances the quality of his life. Adherence & drug tolerance are the two crucial things to be monitored in a patient, who takes this medicine. CD4 test on timely basis is also very significant to assess the viral load in a patient & his or her assessment for ART. To enable better adherence rate in the ART patients, monitoring for adherence to drugs & tolerance is crucial that requires counseling & support. CCC is a new development under NACP phase III and it mainly gives emphasis to monitor patients, newly action on ART and providing counseling on adherence, treatment,

positive prevention & identifying support mechanism for the person living with HIV/AIDS. Routine monitoring of CD4 in patients is also crucial specially Pre ART patients to assess his/her necessity to have ART. Preventing new infections is also another important objective of CCC. Advocacy against stigma & discrimination, bringing positive people under care and support team and a holistic effort of care, support & treatment are the important aspects of CCC. The organization with the financial support of Assam State AIDS Control Society started CCC in the name of Anubhuti in August 2008 at Sibbari Road, Silchar in the district of Cachar. CCC is also identified as a DoTS centre by District TB cell, Cachar to provide DoTs to TB patients. A national level evaluation had been conducted in Feb 2011. Catholic Bishops Conference of India (sub sub recipient of GFATM) will take over CCC from April; 2012. The report of the functioning of CCC is given below:

STATUS REPORT (April 2011-March 2012)

Total enrolled (New registration)	212
No of out-patients attended (old & New)	586
No of in-patients admitted (Old & New)	565
Events conducted at CCC	Candle light Memorial Day
1 st Dec'2011	Observance of World AIDS day
PLHIVs referred for vocation & received placement	5 HIV positive women
Total out referrals	266
Total outreach	234
Family counseling	380 families of PLHIVS counseled

CANDLE LIGHT MEMORIAL DAY OBSERVED AT CCC

On May 15th, 2011 the 28th International AIDS Candlelight Memorial Day, one of the world's largest grassroots movements against HIV and AIDS, spreading hope, developing leaders, and uniting communities was also observed at Anubhuti , a Care support & treatment centre for the people living with HIV/AIDS. The International AIDS Candlelight Memorial, a program of the Global Health Council is one of the oldest and largest grassroots mobilization campaigns for HIV/AIDS awareness in the world. Candlelight Memorial takes place every third Sunday in May and is led by a coalition of some 1,200 community organizations in 115 countries hosting local memorials that honor the lost and raise social consciousness about the disease. The Candlelight is also much more than just a memorial. It provides opportunities for leadership development, policy advocacy, partnerships, and improvement of community mobilization skills. The Candlelight continues to serve as an important intervention for global solidarity, breaking down barriers, and giving hope to new generation. Saluting the people fighting & living with the virus & those who lost in AIDS was the theme of the candle light day. The patients, management, ART Centre officials & staffs together formed a human chain & lighted candle. The Vice President in his address stressed upon more involvement of NGOs in the movement to fight out AIDS & save future generation.

PPTCT PROGRAMME:

The Prevention of Parent to Child Transmission of HIV/AIDS (PPTCT) programme was started in the country in the year 2002, Currently, there are more than 4000 Integrated Counselling and Testing Centres (ICTCs) in the country, most of these in government hospitals, which offer PPTCT services to pregnant women. Of these ICTCs, 502 are located in Obstetrics and Gynaecology Departments and in Maternity Homes where the client load is predominantly comprised of pregnant women. It was estimated by The Joint Technical Mission on PPTCT (2006) that out of 27 million annual pregnancies in India, 189,000 occur in HIV positive pregnant women. In the absence of any intervention, an estimated cohort of 56,700 infected babies will be born annually. The PPTCT programme aims to prevent the prenatal transmission of HIV from an HIV infected pregnant mother to her newborn baby. The programme entails counselling and testing of pregnant women in the ICTCs. Pregnant women who are found to be HIV positive are given a single dose of Nevirapine at the time of labour; their newborn babies also get a single dose of Nevirapine immediately after birth so as to prevent transmission of HIV from mother to child.

The PPTCT services cover about 10 per cent pregnancies in the country. In the year 2006, 2.1 million pregnant women accessed this service. Of these, more than 16,500 pregnant

women were HIV positive. In order to provide universal access to these services further scale up is planned up to the level of Community Health Centre and the Primary Health Centre, as well as private sector by forging public-private partnerships. To enhance care & support of HIV positive pregnant IL& FS PPTCT programmer was started in 2011 in 3 districts of Assam i.e, Cachar, Karimganj & Kamrup. Our agency has been a partner of IL& FS & implementing the programme in Cachar & Karimganj districts respectively. The ORWs intervention is to motivate women in ANC period to have voluntary HIV testing & if found positive then ORW will guide the women from the birth planning till outcome of pregnancy as well as to guide her in accessing treatment for herself, her yet to be born child & live child till 18 months. In due course of time ORWs will arrange support group meetings for betterment of positive women & refer her for different needs for her survival. The target group comprises positive pregnant women & child.

Name of hospitals	Name of district	performance (District wise)
Silchar medical college & hospital	Cachar	11pregnat & 5babies covered
Sibsundari Narisikshashram		
Kalian FRU		
Civil Hospital, Karimganj	Karimganj	5pregnant &3 babies covered
Makunda Missionary Hospital		

REVISED NATIONAL TUBERCULOSIS CONTROL PROGRAMME (RNTCP)

Tuberculosis is one of the major global killer diseases. India itself has 1.4 million TB cases as on 2006 and around 3.2 lac people died of TB in the year 2005. In every minute, the virus kills 1 person & infects 2. No state of our country is free of TB. TB spreads through sneezing & coughing. The Govt. of India now providing DOTs for the treatment of TB free of cost at the doorstep of people and even DOTS provider are also provided, who are paid Rs. 250/- per case of DOTS course completion. Generation of mass awareness & community mobilization is necessary in prevention & treatment of TB. The Govt. of India has introduced Revised National Tuberculosis Control Programme to fight out TB.

The expertise of Deshabandhu Club in implementing health programs successfully was considered by the Assam TB Control Society & thus this organization has been selected as **Nodal NGO** for making intervention in the five districts of Assam namely **Cachar, Karimganj, Hailakandi, N.C Hills & Karbi Anglong**. The main objective of the programme is to create awareness on TB so that more number of people visit health facilities and take treatment for

TB. Presently, the organization is implementing the program in four districts. This organization with the support of state TB cell has done various programmes in districts, which were facilitated by the communication facilitators. A glimpse of the report is given below:

<i>Name of activity/programme</i>	<i>District</i>	<i>Total Nos.</i>
Awareness generation programme	Karimganj	22
Awareness generation programme	Hailakandi	18
Awareness generation programme	Cachar	22

SPECIAL SCHOOL FOR MENTALLY CHALLENGED CHILDREN

Disability or in other words challenged (either physically or mentally) is an emerging problem. The international community has moral commitment to uphold the status of disabled person. Understanding the vulnerability of the disabled in the society & to ameliorate the status of disabled, the organization started a day care centre in 2003 with 17 students. The Chief Coordinator of the centre along with a team of dedicated volunteers has been tirelessly working to bring some hope in the lives of the children with special abilities who are yet to find a suitable social atmosphere for feeling at par with other people with functional abilities. The children are trained on social skills so that they can live life with minimum dependency. The Day Care Centre for the mentally retarded children has completed seven years of service. As the awareness level is increasing and there is dearth of special schools in Barak Valley, the Centre is receiving immense responses from the

masses and the parents of the mentally challenged people in Barak Valley. Its specialized services meant for the mentally retarded, cerebral palasy and autistic children have been proved beneficial for the improvement of the living conditions of these children and their families over the last few years. Deshabandhu Club has been running the rehabilitation programme for the **mentally retarded children** in partnership with the "Disha Parents Association". The members of the Association are actively involved in the decision making and planning of the Day Care Centre activities. Presently, the main focus of the Centre is school readiness programme for the children in the age group of 3 to 6 years. Through this programme, the mild and moderate mentally retarded children are trained for formal school or special school as per their capabilities. The organization has been successful in mainstreaming a few children in the formal schools in the recent past. Apart

from that, the other focus of the centre is imparting vocational training to the grown up mentally retarded boys and girls. This also helps them in getting into some income generation activities. Deshabandhu Club also plays an important role in deciding legal guardianship for the mentally retarded children as the organization is a Permanent Member of the Local Level Committee in Cachar, Karimganj and N.C.Hills districts. This empowers the organization to decide on the legal issues of the mentally retarded persons in those districts at par with the Deputy Commissioner. These Local Level Committees are constituted by the National Trust,

Ministry of Social Justice and Empowerment, Govt. of India, New Delhi. The Day Care Centre provides daily living skill training to the mentally retarded children along with some functional academics so that they can become independent. Regular counseling to the parents and family members is also provided in the Centre. Monthly parents meeting are a part of whole Day Care Centre activity of the organization. The total strength of the Day Care Centre for the session 2011-2012 was 34

COMMUNITY BASED REHABILITATION (CBR) PROGRAMME

Disability "summarizes a great number of different functional limitations occurring in any population in any country of the world. People may be disabled by physical, intellectual or sensory impairment, medical conditions or mental illness. Such impairments, conditions or illnesses may be permanent or transitory in nature. Persons with disabilities are entitled to exercise their civil, political, social, economic and cultural rights on an equal basis with others". The UN estimates that there are 500 million persons with disabilities in the world today. This number is increasing every year due to factors such as war and destruction, unhealthy living conditions, or the absence of knowledge about disability, its causes, prevention and treatment. The majority of persons with disabilities live in less developed countries where people lack access to essential services such as health care. Moreover, there exists a clear relationship between poverty and disability. The risk of impairment is greater for a family that lives in poverty, while and at the same time, a disabled family member places higher demands on the family's resources. Deshabandhu Club, a pioneer organization working for the rights of differently able person with support & patronize of NIMHANS, National trust since long back & in April, 2011 the organization got opportunity to work under aegis of CBR Forum, Bangalore as a proactive and promotional agency in Community Based Rehabilitation of Persons with Disabilities in India .CBR programme is being implemented in four Gaon Panchayat areas under Kalian block namely Kurkuri, Burunga, Sewti & Gorervitor. The programme aims at

rehabilitation of people living with disability by mainstreaming those person in a society where they can live with full dignity .The six thematic area of work are staffing & management, needs assessment, health, education, livelihood & advocacy. The staffs after training at SANCHAR, Kolkata traced 281 persons living with disability in the age group pf 0-60+ population. An overview of the programme is below:

Activity	performance
Total person with disability identified	281
Village level reflection workshop	15
No of PWD/ families with BPL card	92

CWD secondary level	8
Pre school	13
Total no CWDs identified	79

FILM SCREENING & STREET PLAY:

To enable the people to behave in a manner conducive to himself/herself or community is a tough task. In healthcare mere existence of facility & care providers can not make health accessible to everyone. There are lots of barriers exist among us that can be overruled by the pattern of behavior we adopt & practice in life like sanitation, hygiene, prevention from mosquito breeding, hand washing, avoiding tobacco etc. Short films & Street plays are important mass medium to reach large audience. NRHM, Cachar under BCC activity assigned the organization to CONDUCT Street play & Film screening in Cachar. Street play & film screening was conducted under eight block PHCs of cachar. Audiences were made aware on malaria, anemia, hand washing, anti tobacco etc. The scholars of ME & High schools were target audience . A report on the activity is under mentioned:

Total street play	Total film screening	Name of Block PHCs covered
200	240	Bikrampur, Borkhola, Udharband, jalapur, Dholai, Sonai, harinagar, lakhipur

ECONOMIC DEVELOPMENT PROGRAMME

Total 42% of Indian population is living below poverty line as per World Bank report. The economic growth in India is varying from state to state. In 2008-2009 the Per Capita Income in India was Rs. 37,490. Few poor states like Jharkhand are on the frontline due to the policies adopted by the state. Now the question comes when Indian economy was not shaken with the global economic meltdown why India is poor? India with promising Economy has potential to be an economic superpower in the days to come still the irony is India has 42% of population without food, health & shelter. The reasons are perhaps overpopulation, corruption, indiscipline. The Govt. has been trying to improve the situations by adopting pro poor measures. The Govt. is keen to make entrepreneurs by providing technical & financial input to the educated unemployed youths. This organization has taken up various activities towards economic self-reliance of people. A report on the activities conducted by the organization is mentioned below:

ENTREPRENEURSHIP AWARENESS AND DEVELOPMENT

Deshabandhu Club is pioneer in organizing Entrepreneurship Development Programme in Barak Valley region of Assam aiming to boost self employment through establishing own enterprises. This initiative was first started in the year 1996 in collaboration with EDII and with financial support of NABARD, SIDBI, KVIC & Ministry of Food Processing Industries. In this year also Deshabandhu Club under the support of KVIC conducted a Peripatetic Training programme under which 5 nos. of Entrepreneurship Awareness Programme (EAP); 5 nos. of Entrepreneurship Development Programme (EDP) and 1 number of Skill Development Programme (SDP). Under the programme awareness programmes were conducted at different locations of Cachar district where more than 550 youths have attended. Among the persons attended, 20-25 youths have been selected for 2 weeks duration EDP and among them all total 20 youths have been given SDP. Besides, 5 numbers of District level awareness programme was conducted on PMEGP (Prime Minister Employment Generation Programme) in the 5 places in districts of Cachar to make the educated youths aware of the PMEGP scheme. Resource persons from Industries and Banks were also attended those programmes to make the programmes more worthy.

SKILL DEVELOPMENT TRAINING

With the financial support of KVIC this organization has conducted Skill Development Training on Agarbati making under Implementation of the promotional activities under Polymer and Chemical Based Industry. All total 50 youths of Kalain & Barkhola Development Block areas were given skill training on Agarbati Trade. Shri Sarifuz Zaman Laskar, Hon'ble Member of KVIC (NEZ) and Shri P.C.Das, Director, KVIC, Guwahati were remain present at the inaugural function of the training programme.

SKILL DEVELOPMENT TRAINING PROGRAMME ON WATER HYACINTH BASED

CRAFT:

Skill Development programme on Water Hyacinth based craft was conducted by this organization in seven locations of Hailakandi, Cachar & Karimganj districts respectively. The programmes were jointly initiated by Ministry of DONER & North Eastern Development Finance Corporation Ltd. (NEDFI). As concept is this craft is very much new this area awareness programmes were conducted in each locations prior to conducting Skill training where concept, scope and limitations were explained among the villagers and from the awareness interested artisans were selected for the trainings. Total 183 trainees were trained during the programme. A report about the Skill Development Training Programmes are given below:

Sl	Venue	Total no of trainees	M	F	DURATION
1	Behara Bazar	30	5	25	1/9/11 to 10/9/11
2	Tarapur sibbari road	25	-	25	14/9/11 to 24/9/11
3	Niz Katigorah	30	4	26	15/12/11 to 25/12/11
4	Hailakandi	25	2	23	17/12/11 to 26/12/11
5	Kalian	26	1	25	26/12/11 to 4/1/12
6	Badarpur Rly colony	24	-	24	29/12/11 to 7/1/12
7	Kurkuri	23	2	21	6/1/11 to 15/1/12

SYSTEM OF RICE INTENSIFICATION (SRI)

SRI is a sustainable system of agriculture. Deshabandhu Club under sponsorship of Sir Dorabji Tata Trust (SDTT) & Rastriaya Gramin Vikash Nidhi, Guwahati are providing technical as well as other supports to the farmers of Cachar, Karimganj and Hailakandi Districts of Assam. The main purpose is to make people aware on the SRI system of cultivation so that the farmers can use their land not for today but for coming generation. SRI is natural farming, which increases productivity without having any adverse affect on the land. For this year

Deshabandhu Club has engaged two master trainers each in these districts, who have been providing technical support to the farmers. Besides, some inputs are also provided to them like weeder & marker as induction of technologies at the field as well as improved seeds and bio fertilizer so that the farmers are well acquainted with the inputs. The farmers are being benefited by adopting SRI method in the field of agriculture and most of the cases productivity of those lands has increased significantly

COMMON FACILITY CENTRE (CFC) FOR ARTISANS:

Assam is rich in handicrafts but the traditional artisans are skipping their indigenous profession as they are finding it difficult to maintain their livelihood with this profession. In the changing environment their expertise are not at par with the demands of the buyers in the national as well as global market. To revive the indigenous handicraft and to create more employment opportunities, the Govt. of India has established CFCs with an aim to bring them back to their profession by providing knowledge on latest innovation, skill, design development & product diversification. A CFC has been started at Deshabandhu Club for providing necessary supports to the group of artisans. The artisans are updated with latest knowledge on design & skills necessary for them to compete with the national & international market. The artisans are trained to be active entrepreneurs. All total 20 people were trained under *Technology based Entrepreneurship Development Programme* on Jute diversified product at City Office, Silchar.

MAHILA MANDAL PROGRAMME:

Deshabandhu club has been running 2centres at Gorervitor & Naraincherra in Kalain Block under mahila mandal programme.

SOCIAL COUNSELING ADVOCACY:

Legal Aid Cell is one of the important wings of Deshabandhu Club. It was started in 2004 with an aim to generate legal literacy & to extend legal assistance to people. As per directives of the Honorable Supreme Court of India & under permission of District Session Judge, Cachar the cell was started to address issues like domestic violence against women & child. The cell looks after marital disputes, cases on violence against women. It is good to share that most of the disputes have been settled down at the legal aid cell & unsettled disputes are referred to the court. Total 19 cases were filed under legal aid cell. During April 2011 - March 2012. A report of the legalaid cell is as follows

Total cases	15
Total no of case got settled	10
Total no under Judiciary	2
Total no of case under trial	2
Total no of case unresolved	1

CULTURE:

Culture is the heart of a healthy nation. India is unique because of its cultural diversity. India's uniqueness lies in the spirit of unity in the land of cultural diversity. North East India is rich in cultural heritage. Various ethnic groups are found in the northeastern states with diverse cultural identity. Around 15 tribal communities stay in this part of the country. In present day, we need to give right platform to our original talents so that through these artists we can preserve our rich cultural heritage & make it global by capturing international audience. Deshabandhu Club has cultural troop namely Deshabandhu Cultural Mission. The aim of the mission is to spread message on development & different societal issues to the masses. It also observes major cultural events like Yuva Divas, International Literacy Day, World Environment Day, Rabindra Jayanti, Nazrul Jayanti etc. A music competition was held to find out local talents in the age group of 7-11 years, 12-17 years, above 18 years age group. The cultural mission with the support of Sarba Siksha Abhiyan Mission conducted street drama at in salchakra & Katigorah block of Cachar district. The organization also runs a music school at Behara Bazar namely **Deshabandhu Sangeet Vidyalaya** since 1989. Here is report on the performances of the students of the school:

SPORTS

Sports always remained a very important activity of organization. Deshabandhu Club originally started functioning as "**BALAK SAMITY**" in 1966 with main purpose of popularizing game of football and doing some social activities. The small club has multi-folded its activities in Barak Valley but the organizers are still well connected with Sports. The Sports events are held quite regularly here.

ANTI SUPERSTITION INITIATIVE

The human civilization has crossed 20 centuries. We have come across different stages of civilization. The scientific development has changed our life style in different ways but superstition is still embedded in human psyche. People have faith on black magic, evil spirit, and the wonder effect of magical water in getting relief from debt, life threatening diseases or other human crisis. The superstition is found not only among illiterate masses but also it is seen in practice among educated people. The religious fanatics, illiterate people are prime victims

who instead of getting any help double their miseries by being extremely superstitious. It has been found that the superstition affects socio economic condition of the society to great extent. No part of our country is free from superstition. understanding it's consequences on ignorant, poverty-ridden people, the organization had taken initiative to make people free from the false belief, which has no justified grounds. The sensitization is done through street play, exhibition, drama etc throughout Barak Valley.

CONSERVATION OF WILDLIFE

The organization has been constantly working for conservation of rare animal species. The members of the organization are striving hard to make people aware on the conservation of flora & fauna by expressing their significance on environment. The animal lovers of the NGO had saved different rare species snakes like King Cobra & deer from being cruelly killed by people. A King cobra was rescued by members of Deshabandhu Club from human habitation of Behara village. *"We saw a skin of the species from Maruacherra village which was reported to be killed by villagers in the year 2005 from adjoining Pan Jhum field when it attacked their hunter dog during day time"* – said a member of the organization. According to local Khasi peoples, the tail of King Cobra has medicinal value.

CHILDLINE SERVICES

CHILDLINE 1098 is a 24X7 toll free emergency service for children in need of care and protection. Any child/concerned adult on behalf of the child can dial 1098 to avail of emergency assistance. The CHILDLINE service can be understood at three levels – 1098 service, CHILDLINE at the city level and CHILDLINE India Foundation (CIF) at the national level. The CHILDLINE service, 1098, connects callers to one of CHILDLINE's collaborative agencies. When a child or adult calls in, a CHILDLINE team member goes out to the child or alerts a support agency in the vicinity of the child in distress. After the emergency needs of the child have been addressed, CHILDLINE explores options with the child to study, learn a trade, go back home etc. Based on the decision of the child, CHILDLINE links the child to an appropriate organization in the city. Deshabandhu Club has selected by Childline India Foundation (CIF) as Collaborative organization to carry out the services for the needy children. Recruitment of required staffs has completed. 1098 Land line connectivity from BSNL has also already installed. The services will also be started within a short period of time and waiting for getting training to the newly selected staffs.
